POURERS

PREMIUM MEASURED POURERS

Bar Maid measured pourers provide accurate, consistent pours and place the power over profits in the hands of the bar owner.

- Pourer ball bearings don't fall into the bottle thanks to our special patented design
- Smooth pour with less sticking ensured by a primer ring to channel liquor around the inner ball bearing
- Greater accuracy means more profit per bottle thanks to the patented three-ball design
- Easy removal with our "lock-on" collar
- Three popular shot sizes 1oz, 1-1/4oz, 1-1/2oz, wide cork (larger bottles), and flip-tops (keeps the fruit flies out)
- MADE IN USA

Induction ready pot/pan base

Hybrid technology bonds a stainless steel plate to aluminum cookware, as effective in utilizing induction technology as full stainless steel cookware.

- Deep drawn 3003 Aluminum body is durable and highly conductive, better than stainless steel cookware for quickly and evenly distributing heat
- Stainless steel bonded plate allows for magnetic contact with induction cooktops
- Thicker handles and heavier rivets than standard cookware allow for secure comfort in transporting cookware
- Can also be safely used with gas or electric ranges
